

# An Affordable Alternative to Health Insurance

# What Makes Medi-Share Different From Insurance?

Medi-Share empowers Christians to get quality health care, save money, and connect with an innovative sharing community that lifts them up in prayer.

## How Much Can You Save?

On average our members save up to 50% or more per month on health care. Each family selects an Annual Household Portion or AHP, which is the amount that must be met before their Eligible Medical Bills are shareable. There's only one AHP per family so you can save money and live without the stress of meeting per incident charges or individual insurance deductibles.
